Agenda Item E.3.

POLICE RISK MANAGEMENT GRANT FUNDS

ACTION ITEM

ISSUE: The Police Risk Management Grant Funds Historic Usage Report is attached to ensure members are aware of the available grants for their agencies. Members are encouraged to share their use of the funds and provide suggestions for funding going forward.

The committee annually requests funding for the grants. The grant amount has been \$50,000 since 14/15, the Board approved an increase to \$100,000 effective 7/01/2024. Program administrators are comfortable keeping funding at \$100,000 for the upcoming year if no objections.

RECOMMENDATION: Provide feedback and direction regarding grant program for FY 26/27

FISCAL IMPACT: To be determined.

BACKGROUND: The Board approved a FY 14/15 budget of \$50,000, this grant amount was originally set aside for the purchase of body-worn cameras. Since then, once a body camera program is fully funded the member agency has the option to use the funds for other safety and risk management uses such as data storage for body cameras, ballistic vests, vests with load bearing carriers, and officer wellness and fitness. The annual grant fund amount was increased to \$100,000 for FY 24/25.

Agenda Item E.4.

WELLNESS DISCUSSION

Tombstone Courage

ISSUE: Seeking mental and behavioral health treatment for first responders can feel overwhelming and they may question if their experiences and stressors are severe enough to seek help.

<https://youtu.be/OLLokYyX9nE>

RECOMMENDATION: Information Only.

FISCAL IMPACT: None expected at this time.

BACKGROUND: Tombstone Courage was founded by Jeff McGreevey, a former U.S. Marine and 29-year law enforcement veteran. Since retiring from law enforcement, he has focused on advocating for first responder mental health and performance through nonprofit and business development work. Jeff has organized leadership and resiliency conferences, partnering with public safety agencies and consulting firms to bring top tier speakers to communities to increase the readiness of first responders.

Victory Mindset Leadership and Resilience Summit is a one-day wellness event for first responders. The event is a culmination of over 20 years' experience in the peer support and mental health space. The topics focus on what matters. For example, mental health, resilience, leadership, peer support, overall health, and longevity. The purpose of the Victory Mindset events is to help large and small agencies develop and strengthen their wellness programs so that their personnel can achieve total victory.

Agenda Item E.6.

TECHNOLOGY DISCUSSION

INFORMATION ITEM

ISSUE: Sacramento Sheriff Sergeant, Andrew Swift, will provide a presentation on the effectiveness of a Unmanned Aircraft Systems (UAS) program in a law enforcement setting. His overview will give insight from the ground up all the way to implementation; to include legislation considerations, policy, finance, and a fully functioning program.

RECOMMENDATION: Information only.

FISCAL IMPACT: None

BACKGROUND: Protecting and serving has always been challenging and that's still true today. Law enforcement budgets and recruitment efforts have had trouble keeping pace with rising crime rates, particularly violent crimes. That's why law enforcement agencies around the country are investing in tailor made UAS fleet programs to assist their personnel in the situations in which they most frequently engage.

Drone fleets allow officers to observe dense urban areas or wide-open fields with ease. When suspects are spotted from a drone's far seeing vantage point, ground units maneuver with greater effectiveness and can avoid potentially dangerous ambushes. In heavy congested areas, the high ground matters more than ever. The right drone fleet monitors large gatherings for suspicious behavior, identifies traffic patterns where an officer on the ground may be unable, and otherwise finds important details that ground units may miss.

ROUND TABLE ITEMS

INFORMATION ITEM

ISSUE: The floor will be open for discussion including potential future training topics.

- Training ideas for May Meeting
- Aviation (Drones) premium is expected increase by 5-7% compared to the 2025-26 program year.

RECOMMENDATION: None

FISCAL IMPACT: None

BACKGROUND: Alliant and Sedgwick organize the NCCSIF Police Risk Management Committee meetings. These meetings are held on a quarterly basis, where a Round Table Discussion is included in the agenda.

SAVE THE DATE | FEBRUARY 12th –REGIONAL TRAINING

Insurance Requirements in Contracts (IRIC)

Topic Includes: This workshop will address the following **contractual risk transfer** topics:

What is it:

- Understand the process of transferring risk from your agency to others, including identifying the risk, specifying the right indemnity and insurance protection, and ensuring compliance.

What to ask for:

- Receive good examples of “Hold Harmless” agreements, learn what they mean, and understand their limitations. Recommended insurance requirements for most types of contracts will be provided and discussed.

Did you get what you requested:

- Learn how to review the documents you receive to tell if they provide the coverage you requested, including Certificates of Insurance and the endorsements that are appropriate and binding.

Who Should Attend: Anyone who wants to understand risk transfer and insurance requirements in contracts to protect their agency from loss.

Date and Time:

Thursday, February 12th, 2026, 10:00a.m.-11:30a.m.

Location: Zoom Webinar

Presenter:

Marcus Beverly, First Vice President, Alliant Insurance Services, Inc.

Marcus has 35 years of experience in claims, insurance, and risk management, including three decades of experience working with California public agencies. HEAT ILLNESS PREVENTION TRAINING

Presented by Shane Baird, Risk Services Manager, CSP, CHST, Sedgwick

Topic Includes:

California employers are required to take steps to protect outdoor workers from heat illness with water, rest, shade, and training. Heat illness prevention training is required for all outdoor workers and a written prevention plan must be available at all outdoor worksites. Requirements go into effect when the temperature **exceeds 80° F**, and specific high heat procedures are implemented when the temperature **equals or exceeds 95° F**. It is imperative that managers and supervisors understand what is required and ensure they are taking the steps necessary to protect workers.

Highlights Include:

- Water requirements
- Shade requirements
- Preventative cool down periods
- Acclimatization procedures
- High heat procedures
- Training requirements
- Types of heat illness
