C. RISK MANAGEMENT

C1. Body Camera Update

Checking in n the Body Cameras for any anecdotal evidence and it was mentioned that NCCSIF will eventually begin tracking claims to determine if there has been an impact since the implementation of the Body Cameras approximately three months ago on August 27, 2014.

The City of Rocklin noted that a woman had claimed that she was hit in the eye when the officer presented the ticket to her. However, when the video was reviewed it clearly showed that the woman was not hit by the ticket so the Body Camera has had a positive effect on potential litigation.

In the City of Folsom there was an Internal Affairs complaint from a family who was claiming their son was being targeted by one officer. And after the video was reviewed by Internal Affairs it was also shown to the family who apologized and withdrew their complaint.
